

CENTRAL VIRGINIA
COMMUNITY SERVICES

Behavioral Healthcare

Internships

Central Virginia Community Services provides the opportunity to gain clinical experience through our internship programs. Internship placements can be found in either Adult & Family Services or Child and Family Services. Some benefits of your internship include direct clinical experience with clients; supervision from experienced and supportive clinicians, training in writing progress notes, treatment plans, and other clinical documentation; and increased knowledge of community resources. Let CVCS show you the way to a successful career by contacting Chris Ogden at 847-8035 for AFS intern opportunities or Christy Compton at 948-4831 for CFS intern opportunities.
